Message from the Principal

Our Vision

Byron Bay High School delivers a collaborative learning environment where students achieve excellence through our connection with community and land, creating holistic leaders of the future.

Byron Bay High School respectfully acknowledges the Arakwal People of the Bundjalung Nation on whose land we learn and work together.

Dear Year 12 students and parents

On behalf of the school I would like to thank you for choosing Byron Bay High School. We are extremely proud of our school and our students' amazing achievements. I know that in the next twelve months you have the opportunity to enjoy the very highest standards of academic, sporting and cultural success.

Byron Bay High School is a comprehensive, co-educational high school that consistently achieves outstanding educational outcomes. The school prides itself on developing outstanding citizens who have a strong sense of empowerment and add value to society.

Students have many expectations of senior school. They expect courses which provide learning opportunities, enriched social lives, positive relationships with peers and staff as well as recognition of their status as emerging adults. Staff and parents expect students to concentrate on their studies, balance their school and personal lives, contribute to our safe and secure environment as well as embrace the ethics, values and standards of the school and community.

This booklet contains the assessment information for your HSC courses. You should keep this booklet in a safe place and refer to it regularly. Create your own yearly planner with all your assessment tasks clearly marked. You will need to apply yourself diligently and with sustained effort throughout the duration of your course. Your attendance and application must be regular and genuine. A task does not have to be a formal assessment task to warrant a serious response from you. Please note carefully the rules in relation to malpractice, submission of tasks and illness/misadventure processes.

If and when you need help at any time do not hesitate to seek assistance from me or any of our staff. There is welfare team waiting to assist you.

I would like to wish you good luck and encourage you to work hard to achieve the best possible result in your HSC year at Byron Bay High School. Be positive and optimistic. The future is yours!

This will be a fantastic year and one you will never forget.

Ms Janine Marcus
Principal

Introduction

The NSW Education Standards Authority (NESA) requires that schools submit a school-based assessment mark for each of your courses. The marks Byron Bay High School submits to NESA are based on the tasks outlined in this Assessment Procedures and Schedules booklet.

Schools are required to prepare and administer an assessment program in accordance with procedures and specifications provided by NESA. These specifications identify the number of tasks, the components of the course to be assessed, weightings and the timing of tasks.

Assessment tasks are designed to measure knowledge, skills and understanding of a wide range of outcomes. Tasks may include tests, written assignments, practical activities, oral tasks, fieldwork and projects.

The provision of a separate school-based Assessment Mark from the Examination Mark in the HSC has a two-fold purpose. It is intended to provide a measure of a student's achievement which is based on:

- a wider range of syllabus objectives than is measured by the external examination;
- measures and observations obtained throughout the course rather than at a single examination.

Such assessment allows due weight to be given to measures of student achievement which, although evident to a class teacher, may not be adequately assessed by a single external examination.

In addition, schools are required to rank all students doing the same course.

For most Board Developed Courses, the raw assessment mark for each course will be moderated by NESA according to the performance of the students at Byron Bay High School in the HSC examination for that course. Your position in the course rank order will not be altered by the moderation process. For Board Developed Courses, the moderated school assessment is worth 50% of the final mark for the course, while the HSC examination result provides the other 50% of the final HSC mark.

Exceptions to this process are English Studies and Mathematics Standard 1 courses where their school-based assessment is reported to NESA as a grade (A to E). Students who sit the optional HSC examination for these courses will have an HSC mark and performance band derived from the HSC examination only.

For Board Endorsed Courses, the school assessment is the final mark which appears on the HSC. This mark is generated from Performance Descriptions for reporting achievement in HSC Board Endorsed Courses and is not moderated.

VET courses can have dual accreditation. Assessment in VET courses is further explained in the section of this booklet titled Important notes relating to Assessment in VET Courses.

Assessment of students studying Stage 6 Life Skills courses is against the achievement of outcomes identified through the individual transition process.

Section One - Assessment Procedures

This section contains a summary of all procedures relating to assessment at Byron Bay High School. It is a valuable reference to be retained and utilised throughout Year 12.

Students should refer to the information contained in this section to understand their responsibilities and to seek answers to any questions they may have. If there are any further questions, the Deputy Principal, Mr Warren Lee or the Principal, Mrs Janine Marcus are available for advice.

Satisfactory Completion of a Course

'A student will be considered to have satisfactorily completed a course if, in the principal's view, there is sufficient evidence that the student has:

- followed the course developed or endorsed by NESA; and
- applied themselves with diligence and sustained effort to the set tasks and experiences provided in the course by the school; and
- achieved some or all of the course outcomes' [ACE Manual 8019](#)

Attendance

At Byron Bay High School, **at least 90% attendance** is expected.

- The Principal may determine that, as a result of absence, the course completion criteria may not be met.
- Any extended leave requires the approval of the Principal prior to the student commencing their leave.
- There should be no unexplained absences.
- Unsatisfactory attendance impacts on a student's ability to satisfactorily complete course work.
- An Illness/Misadventure Application accompanied with appropriate documentation is required to explain absences:
 - on the day before an assessment task
 - during periods before an assessment task
 - for being late to school on the day of an assessment task
 - on the day of an assessment task.

Failure to provide documentation may result in zero marks being awarded for the assessment task.

Participation

A **genuine attempt** must be made concerning the teaching and learning activities of a course.

- Participating in a course involves completing set tasks, homework and assignments, even if they are not assessment tasks. Work placement is a mandatory HSC requirement for Vocational Education Training (VET) courses.
- It is up to the teacher's professional judgment in collaboration with the Head Teacher, to determine what constitutes genuine participation.
- Those deemed unsatisfactory will be issued with an official NESA 'N' (Non-Completion) warning notice.
- 'N' (Non-Completion) Warnings are sent to parents in writing if this eventuality appears likely. Students are given an opportunity to rectify the situation.

Completion of Assessment Tasks

A student must make a **genuine attempt** toward all Assessment Tasks in each course in which they are entered.

- Any student who fails to complete an Assessment Task will be issued with an official NESA 'N' (Non-Completion) warning notice. 'N' (Non-Completion) warning notices are sent to parents in writing via email and post. Students are given an opportunity to rectify the situation.
- Any student who fails to complete Assessment Tasks worth in excess of 50% of the available marks will be issued with an official NESA 'N' (Non-Completion) notice, which will disqualify him/her from the particular course. This may in turn disqualify the student from receiving the HSC and/or an ATAR.

Unsatisfactory Completion of a Course

Notification

Parents will be notified by letter when students are not meeting requirements in a course. This formal warning is called an 'N' Warning.

Students are given an opportunity to rectify the situation

- **Attendance** and **participation** in course teaching and learning activities may need to be improved.
- **Completion of an Assessment Task** may require students to complete a missed assessment task within a two week period.

Second N-Warning Letter Sent

Students are given a second opportunity to rectify their situation.

Non-Completion of Course Determination (N-Award)

The process for the Principal to action a determination is managed by NESA and documentation is provided within the HSC N-Determination package on Schools Online. An unsatisfactory completion of a course will be determined by the Principal, in conjunction with the Deputy Principal and relevant Head Teacher(s).

The Principal will explain the reasons for the determination/s to the student and advise them of the consequences of this determination.

The Principal will ensure the student has read the Information for Students and read and signed the Student's Declaration on the Principal's Determination Form.

If the student is under 18 years of age the signature of the student's parent/guardian must also be obtained.

The student will be advised of their right to seek a reconsideration of this determination and the procedures involved to submit an appeal. The student will be provided with a blank Student Appeal Form and advised of the final date for submission of this form. If an appeal is lodged, a school review committee will determine the outcome, which will be advised to the student by the Principal.

This course(s) will not be listed on the student's Higher School Certificate Record of Achievement unless the student seeks a review of this determination and the appeal is successful.

The 'N' determination in this course(s) may also affect the student's eligibility for the award of the Higher School Certificate and/or an ATAR. To be issued with an HSC a student must have successfully completed at least 12 units satisfactorily in the Preliminary (Year 11) pattern of study and 10 units in the HSC (Year 12) study pattern.

Dear Parent/Carer,

OFFICIAL WARNING
NON-COMPLETION OF an HSC COURSE- FIRST REMINDER
Student's Name: Bon Scott

I am writing to advise that your son Bon is in danger of not meeting the requirements for the satisfactory completion of the Higher School Certificate in Music.

The NSW Education Standards Authority (NESA) requires schools to issue students who are in danger of not meeting course requirements with official warnings in order to give them the opportunity to correct the problem. A minimum of two course-specific warnings must be issued prior to a final non-completion of course determination being made (N Award).

This is official warning number 3 we have issued notifying you that Bon is at risk of not completing the above course.

Criteria for satisfactory completion of a course

For a student to satisfactorily complete a course, NESA requires the Principal to have sufficient evidence that the student has:

- a) **followed** the course developed or endorsed by the Board; and
- b) **applied** themselves with diligence and sustained effort to the set tasks and experiences provided in the Course by the school; and
- c) **achieved** some or all of the course outcomes.

Where it is determined that a student has not met the course completion requirements, they place themselves at risk of receiving a determination of non-completion of course requirements. This will mean that the course will not be listed on the student's Record of Achievement and may affect the student's eligibility for the Higher School Certificate. In Year 12, students must make a genuine attempt at assessment tasks that contribute in excess of 50% of available marks. Completion of tasks worthy of exactly 50% is not sufficient; tasks worth in excess of 50% must be completed.

Bon is not currently meeting one or more of these requirements. These requirements are detailed in the following table.

To support Bon in meeting the course requirements, we request that you discuss this matter with Bon, and encourage and support him to carry out the required actions. If you have any questions about this matter, please contact John Smith.

Yours sincerely,

Ms Janine Marcus
PRINCIPAL

**[b]REQUIREMENTS FOR THE SATISFACTORY COMPLETION OF A
HIGHER SCHOOL CERTIFICATE COURSE**

Student's name: Bon Scott[/b]

- I have received the letter dated Thursday, 18th August 2022 indicating that Bon is in danger of not having satisfactorily completed Music.
- I am aware that this course may not appear on his Higher School Certificate Record of Achievement.
- I am also aware that the 'N' determination may make him ineligible for the award of the Higher School Certificate.

Assessment in practice

Notification of tasks

- The Assessment Schedules (Section 2) indicate specific dates scheduled for assessment tasks for each course from Term 4, 2022 to Term 3, 2023.
- Teachers will provide written notification for each assessment task, outlining specific task details and marking criteria, at least two weeks prior to the task due date. Teachers will use their professional judgement to ensure students have adequate time to prepare for each task.
- Students should refer to the assessment schedules for task types, task dates, weightings and outcomes to be assessed.
- Notification of changes (eg. of date due) will be given in writing and will require Deputy Principal approval.

Submission of tasks

- Teachers will inform students in writing of the date and time the task is to be submitted by, and how the task is to be submitted.
- Students **must not** under any circumstances leave a piece of work on a teacher's desk as no record will have been established of its presentation. Any work not personally handed to the class teacher, or a person nominated by the class teacher, will be dealt with in the same manner as for failure to complete a task.
- Students must follow the procedures outlined in this booklet for absence from, or inability to submit, an assessment task on the due date, if this is due to illness or misadventure.

Late submission of tasks

- Zero marks will be awarded for the task unless there is an approved illness misadventure.
- The task must still be submitted to meet course requirements. The task will be marked and returned to the student with feedback. However, the mark will not contribute to the aggregated assessment mark in that subject or course.
- Failure to submit an assessment task will lead to an 'N' (Non-Completion) Warning and may lead to an 'N' (Non-Completion) determination for the course. This may affect a student's eligibility for the HSC and/or an ATAR.

Reporting and task feedback

- All students will receive meaningful, timely feedback on their performance in each task.
- Feedback prior to task submission is not mandatory. Teachers may facilitate this assistance however the integrity of the assessment task must be maintained.
- Feedback will normally be provided as a comment, a raw mark, and/or ranked position within the course cohort.
- The onus is on students to check their mark calculations and report any discrepancies at the time the assessment task is returned to them.
- The school will provide each student with formal details of their ranked position within each course, reflecting this school's candidature, as part of their final Year 12 report.
- NESA regulations prohibit the school from providing a raw aggregate of marks scored in any course or subject.

Procedures for student absence from or inability to submit an Assessment Task on the due date

Step 1

NOTIFY the Deputy Principal and/or relevant Head Teacher and/or class teacher on the morning of the task or task due-by date.

Step 2

OBTAIN documentation:

- Illness - a Doctor's Medical Certificate will be required covering the absence.
- Technological Failure- Students will need to provide independent evidence of the technological failure, e.g. Attempts to rebuild or recover printouts of drafts or partial drafts or associated notes and summaries in order for extensions etc. to be granted. Students will be solely responsible for maintaining backups of all personal data files, independently of the school's computers and network.
- Other documentation such as police reports in the case of accidents, hospital documents for family illness, school counsellors report or other equivalent professional (objective) documents can be used.

Step 3

SUBMIT the task:

Every effort is to be made to submit a hand-in task on the due date regardless of illness/misadventure on the due date.

Parents can submit the task at the Front Office or you can contact the teacher or relevant Head Teacher and submit the task electronically. If this is not possible, **SUBMIT** the task the very next day you attend school to the Class Teacher or to the relevant Head Teacher even if there is **NO** scheduled lesson on that day.

ORGANISE an alternate date for an in-class task or examination the very next day you attend school with the Class Teacher or the relevant Head Teacher even if there is **NO** scheduled lesson on that day.

Step 4

COLLECT and **COMPLETE** an Illness/Misadventure Form.

Forms can be collected from the Deputy Principal the very next day you attend school.

Complete the form within 2 school days of your return to school.

Attach the relevant documentation and collect all required signatures.

Step 5

SUBMIT the Illness/Misadventure form and documentation to the Deputy Principal. On return to school, students will be given **2 school days** to submit the form and documentation. If circumstances (e.g. class teacher or Head Teacher absent) prevent this you must notify the Deputy Principal within the 2 day period.

The Deputy Principal will notify the student and relevant Head Teacher of the decision regarding the illness/misadventure application within **2 school days** of submission.

If the **application is successful** an extension of time may be granted and the task marked without penalty, or a mark may be awarded based on a substitute task. In exceptional circumstances (where undertaking a substitute task is not feasible or reasonable, or where the missed task is difficult to duplicate) the principal should authorize the use of an estimate based on other appropriate evidence. An estimate will only be applied at the end of the course. If the **application is unsuccessful** the task is marked and awarded 'zero'.

Step 6

If the student's application is unsuccessful, students are entitled to lodge an appeal by completing the Student Appeal form and submitting it to the Deputy Principal within **two school days** of being informed of the illness/misadventure application decision.

The appeal will be considered within 2 school days of being submitted to the Deputy Principal, in consultation with the Principal and relevant Head Teacher.

If the student's appeal is successful, the student will be informed and marks awarded. If the student's appeal is unsuccessful, the student will be informed and no further actions are available.

Malpractice

All work presented in assessment tasks and external examinations (including submitted works and practical examinations) must be the student's own or must be acknowledged appropriately.

Malpractice is any activity that allows you to gain an unfair advantage over other students. It includes, but is not limited to:

- copying someone else's work in part or in whole, and presenting it as your own
- using material directly from books, journals, CDs or the internet without reference to the source
- building on the ideas of another person without reference to the source
- buying, stealing or borrowing another person's work and presenting it as your own
- submitting work to which another person such as a parent, coach or subject expert has contributed substantially
- using words, ideas, designs or the workmanship of others in practical and performance tasks without appropriate acknowledgement
- paying someone to write or prepare material
- breaching school examination rules
- using non-approved aides during an assessment task
- contriving false explanations to explain work not handed in by the due date
- assisting another student to engage in malpractice
- unexplained absences:
 - on the day before the task
 - during periods before the task
 - late to school on the day of the task

If Malpractice is suspected by a teacher

The student's work in question will be referred to the Head Teacher and/or Deputy Principal for further investigation.

If malpractice is confirmed

The task will be awarded a zero mark and the student/s and parent/s advised accordingly. A school letter will be sent home and the student's name and details relating to the episode of malpractice will be recorded on the NESA malpractice register.

The mark awarded is a zero

Students will be expected to complete and submit the task on an alternate date to demonstrate satisfactory completion of the course.

Malpractice could lead to you receiving zero marks and may jeopardise your HSC or ATAR results

Award of Zero

Zero will be awarded for any task when:

- the student is absent from an in-class or examination task without a valid illness/misadventure.
- a task is submitted more than two days after the due date without a valid illness/misadventure.
- there is sufficient evidence of malpractice.
- there is sufficient evidence of breaching school examination rules.
- there is sufficient evidence of a non-serious attempt. Any non-serious attempts will be referred to the Head Teacher and Deputy Principal for review.

Invalid Task

All assessment tasks and schedules should be set with integrity and conducted in fairness to ensure equity for all students. No student should be either advantaged nor disadvantaged by school assessment procedures.

However, if required the school reserves the right to deem a task invalid. The Principal, in consultation with the relevant Head Teacher and/or Deputy Principal, will consider the circumstances and determine whether the integrity of the task can be maintained. If not, appropriate action will be taken to reschedule a task.

The decision and details regarding the rescheduled task will be communicated to affected students and their parents/carers. The responsibility to communicate these changes will rest with the relevant Head Teacher and Teacher, approved by the Deputy Principal, and will adhere to school procedure ie: 2 weeks' notice.

A copy of the amended assessment schedule should be made available to the cohort.

Senior Board of Review

A Senior Board of Review will consist of the relevant Deputy Principal, the Head Teacher Administration and the relevant Year Adviser. It will formally convene in Term 1 Week 4 and Term 2 Week 4 to interview senior students whose effort, results and attitude indicate a lack of acceptable progress in the HSC course, normally in two or more subjects.

The purpose and function of the Senior Board of Review

- To warn the student that their progress in the HSC course may be jeopardised, and that they may be at risk of non-completion.
- To discuss the pertinent issues with the student, agreed solutions/strategies and the time frame for remedial action.
- To review student attendance in each case.
- To review any other relevant material.
- To Inform parents/caregivers in writing of the determination of the Senior Board of Review.
- To monitor subsequent progress or lack thereof through written classroom teacher feedback.
- To interview the student at a subsequent Senior Board of Review (or sooner if necessary) when a student is clearly failing to fulfil the agreed conditions.
- To recommend to the Principal that a student be warned of expulsion from school for unsatisfactory participation in learning.

The Process

- The Deputy Principal will ask for referrals from classroom teachers and Head Teachers for students who are at risk of unsatisfactory participation and/or are an attendance concern.
- A letter advising the student of date/time/place of interview will be hand delivered to student by the Deputy Principal or delegated staff member.
- The interview will be conducted by the Deputy Principal, together with the Year Adviser, the student and their parent/s and any other relevant parties.
- Feedback regarding determinations of the Senior Board of Review would be summarised by the Deputy Principal and distributed to Faculty Head Teachers after the interview day.
- Letters summarising the determination of the Senior Board of Review and agreed solutions/strategies/timeframes, as well as consequences for non-compliance, would be prepared by the Deputy Principal and emailed or posted to parents after the interview day.

The Benefits

- To support student engagement and academic progress.
- To provide consistent whole school monitoring of senior student progress, including the collation of cross-faculty data on a student over time.
- To facilitate the efficient identification, intervention and monitoring of students requiring assistance and guidance.
- For staff to have an overview of a student's progress

Student Support

For students transferring from other schools/courses

Assessment will commence at the time of transfer to Byron Bay High School. Final assessment determinations will be made on available evidence.

- For students transferring from other schools, advice will be sought from the previous school.
- Students transferring from other courses may be required to complete any missed coursework and/or assessment tasks to meet the eligibility requirements of the newly enrolled course.

Disability Provisions

Upon application and approval, students with a disability or medical condition will be supported with appropriate disability provisions for school-based assessment tasks. Approval of disability provisions for HSC examinations is via student application to NESA.

If a student believes they qualify for disability provisions, they must see the Deputy Principal or the Head Teacher of the course concerned. Students will be required to complete an Application for Disability Provisions and submit it for approval, together with supporting documentation as appropriate eg: Medical Certificate.

Appeals Procedures

Assessment Task Review

Once an Assessment task has been assessed and the mark accepted, i.e. recognised by both teacher and student, then it constitutes an “agreed mark” and cannot be altered - nor does the work have to be kept by the teacher as it is ineligible for remark.

If the student does not accept the mark i.e. there is not an ‘agreed mark’, students are entitled to lodge an appeal by completing a Student Appeal Form available from the Deputy Principal. The form must be submitted to the Principal within 2 school days of the task being returned after marking.

The appeal will be considered by the Deputy Principal, in consultation with the Principal and relevant Head Teacher, within 2 school days of being submitted.

If the student’s appeal is successful, the student will be informed and other students in the course will be informed of subsequent changes (if any) in relative positions within the cohort.

If the student’s appeal is unsuccessful, the student will be informed and no further actions are available.

Final HSC Assessment Rank or Grade Appeal

Final assessment ranks and grades will be reported to students via their final Year 12 school report, issued before the HSC examinations. HSC assessment ranks and grades are also available to students from NESA via Students Online from the last day of the HSC examinations.

Students are entitled to challenge the final assessment ranking on one or more of the following grounds:

- that the assessment procedure for a particular course did not occur according to the weighting of components as required by NESA.
- that the school’s or relevant subject’s assessment policy has not been followed.
- that a computational/clerical error has led to the student’s rank in a course being incorrectly determined.

To appeal, students must complete a NESA *Application for School Review of Assessment Rank or Grade* available from the Principal via Schools Online. The form must be submitted to the Principal promptly.

An in-school appeal will be considered by the Principal in consultation with the Deputy Principal and relevant Head Teacher.

If the student’s appeal is successful, the student will be informed and other students in the course will be informed of subsequent changes (if any) in relative positions within the cohort.

If the student’s appeal is unsuccessful, the student will be informed and they will be advised that they may also appeal to NESA after the HSC examinations. This appeal must be made no later than the closing date as advised each year by NESA. The Principal will inform the student of this date and how to access the appropriate NESA appeals form.

Appeal on ‘N’ Determination

When an ‘N’ (Non-Completion) determination for a course is made, the Principal’s Report should be completed and a copy given, together with the Student Appeal form, to the student, or forwarded to the student’s home address. A student wishing to appeal will complete the Student Appeal form and submit it to the Principal.

An in-school appeal will be considered by the Principal in consultation with the Deputy Principal and relevant Head Teacher.

If the student's appeal is successful at the school level, notification will be sent to NESAs so that the 'N' can be removed from both the assessment schedule and the unsatisfactory completion of course schedule.

If the student's appeal is unsuccessful at the school level, the Principal's Report form, the Student Appeal form and any other relevant documentation will be submitted to NESAs. This appeal must be made no later than the closing date as advised each year by NESAs. The Principal will inform the student of this date.

Sample Student Appeal Form

Student Appeal Form

☐ Arising from an Assessment task

This form should be completed only if the student does not accept the mark received in an individual assessment task i.e. there is not an 'agreed mark'.

This form is to be completed and signed by the student within 2 school days after the marked task is returned to the student. The assessment task will be retained by the teacher and given to the Head Teacher until the appeal is considered.

☐ Arising from Illness/Misadventure Application

This form should be completed only if the student does not accept the decision on absence from an assessment task and illness/misadventure application.

This form is to be completed and signed by the student within two days of being informed of the illness/misadventure application decision.

Student Statement in Support of Appeal:

(Additional pages may be stapled on to this form if more space is needed)

The appeal will be considered by the Deputy Principal in consultation with the Principal and the relevant Head Teacher within 2 school days of it being submitted to the relevant Deputy Principal.

The Deputy Principal will advise you of the outcome of the school review of your appeal. If the student's appeal is successful, the student will be informed and other students in the course informed of changes (if any) in relative positions within the course group.

If the student's appeal is unsuccessful, the student will be informed and no further actions are available.

Section Two - Assessment Schedules

This section contains an annual planner of all tasks due throughout the year, followed by an assessment schedule for each course.

Introduction to Assessment Schedules

The course Assessment Schedules are organised into Board Developed Courses and Board Endorsed Courses and listed alphabetically within these sections.

Each course Assessment Schedule indicates the syllabus components and weightings, the task number, type, and due date (Term and Week).

Each course has the syllabus outcomes listed below the schedule for your reference.

All syllabus outcomes should be taught within a course, but there is no requirement to formally assess all outcomes. The course outcomes to be assessed are identified under each task. Often a number of outcomes can be addressed by a single task. Course outcomes relating to values and attitudes should not be formally assessed.

For further information on assessment schedules for individual courses, the Class Teacher or Head Teacher of the subject should be contacted via phone on 6685 8188 or email byronbay-h.school@det.nsw.edu.au

Skills in complex analysis, sustained composition and independent investigation	50%	15%	20%	15%
WEIGHTING	100%	35%	35%	30%

Course outcomes

A student:

- EE12-1 demonstrates and applies insightful understanding of the dynamic, often subtle, relationship between text, purpose, audience and context, across a range of modes, media and technologies
- EE12-2 analyses and experiments with language forms, features and structures of complex texts, discerningly evaluating their effects on meaning for different purposes, audiences and contexts
- EE12-3 independently investigates, interprets and synthesises critical and creative texts to analyse and evaluate different ways of valuing texts in order to inform and refine response to and composition of sophisticated texts
- EE12-4 critically evaluates how perspectives, including the cultural assumptions and values that underpin those perspectives, are represented in texts
- EE12-5 reflects on and evaluates the development of their conceptual understanding and the independent and collaborative writing and creative processes

Skills in sustained composition	50%	15%	20%	15%
WEIGHTING	100%	30%	40%	30%

Course outcomes

A student:

- EEX12-1 demonstrates a deep understanding of the dynamic relationship between text, composer, audience and context through the conceptualisation and execution of an extended composition using appropriate mode, medium and technology
- EEX12-2 strategically and effectively manipulates language forms and features to create a substantial extended composition for a specific purpose, audience and context
- EEX12-3 applies knowledge, understanding and insight, refined through analysis, interpretation, criticism and evaluation of strategically chosen texts, to shape new meaning in an original composition
- EEX12-4 undertakes extensive independent investigation to articulate a personal perspective that explores, challenges, speculates or evaluates a significant situation, event or idea
- EEX12-5 reflects on and evaluates the composition process and the effectiveness of their own published composition

Course outcomes

A student:

- H1.1 investigates industry through the study of businesses in one focus area
- H1.2 identifies appropriate equipment, production and manufacturing techniques and describes the impact of new and developing technologies in industry
- H1.3 identifies important historical developments in the focus area industry
- H2.1 demonstrates proficiency in the use of safe working practices and workshop equipment maintenance techniques
- H3.1 demonstrates skills in sketching, producing and interpreting drawings
- H3.2 selects and applies appropriate research and problem-solving skills
- H3.3 applies and justifies design principles effectively through the production of a Major Project
- H4.1 demonstrates competence in a range of practical skills appropriate to the Major Project
- H4.2 explores the need to outsource appropriate expertise where necessary to complement personal practical skills
- H4.3 critically applies knowledge and skills related to properties and characteristics of materials/components
- H5.1 selects and uses communication and information processing skills
- H5.2 examines and applies appropriate documentation techniques to project management
- H6.1 evaluates the characteristics of quality manufactured products
- H6.2 applies the principles of quality and quality control
- H7.1 explains the impact of the focus area industry on the social and physical environment
- H7.2 analyses the impact of existing, new and emerging technologies of the focus industry on society and the environment

Course outcomes

A student:

- H1 identifies and applies legal concepts and terminology
- H2 describes and explains key features of and the relationship between Australian and international law
- H3 analyses the operation of domestic and international legal systems
- H4 evaluates the effectiveness of the legal system in addressing issues
- H5 explains the role of law in encouraging cooperation and resolving conflict, as well as initiating and responding to change
- H6 assesses the nature of the interrelationship between the legal system and society
- H7 evaluates the effectiveness of the law in achieving justice
- H8 locates, selects, organises, synthesises and analyses legal information from a variety of sources including legislation, cases, media, international instruments and documents
- H9 communicates legal information using well-structured and logical arguments
- H10 analyses differing perspectives and interpretations of legal information and issues.

Course outcomes

A student:

- MA12-1 uses detailed algebraic and graphical techniques to critically construct, model and evaluate arguments in a range of familiar and unfamiliar contexts
- MA12-2 models and solves problems and makes informed decisions about financial situations using mathematical reasoning and techniques
- MA12-3 applies calculus techniques to model and solve problems
- MA12-4 applies the concepts and techniques of arithmetic and geometric sequences and series in the solution of problems
- MA12-5 applies the concepts and techniques of periodic functions in the solution of problems involving trigonometric graphs
- MA12-6 applies appropriate differentiation methods to solve problems
- MA12-7 applies the concepts and techniques of indefinite and definite integrals in the solution of problems
- MA12-8 solves problems using appropriate statistical processes
- MA12-9 chooses and uses appropriate technology effectively in a range of contexts, models and applies critical thinking to recognise appropriate times for such use
- MA12-10 constructs arguments to prove and justify results and provides reasoning to support conclusions which are appropriate to the context

Course outcomes

Through activities in performance, composition, musicology and aural, a student:

- H1 performs stylistically, music that is characteristic of topics studied, both as a soloist and as a member of an ensemble
- H2 reads, interprets, discusses and analyses simple musical scores that are characteristic of the topics studied
- H3 improvises and composes music using the range of concepts for familiar sound sources reflecting the cultural and historical contexts studied
- H4 articulates an aural understanding of musical concepts and their relationships in a wide variety of musical styles
- H5 critically evaluates and discusses performances and compositions
- H6 critically evaluates and discusses the use of the concepts of music in works representative of the topics studied and through wide listening
- H7 understands the capabilities of performing media, incorporates technologies into composition and performance as appropriate to the topics studied
- H8 identifies, recognises, experiments with, and discusses the use and effects of technology in music
- H9 performs as a means of self-expression and communication
- H10 demonstrates a willingness to participate in performance, composition, musicology and aural activities
- H11 demonstrates a willingness to accept and use constructive criticism

Course outcomes:

A student:

- H1 describes the nature and justifies the choice of Australia's health priorities
- H2 analyses and explains the health status of Australians in terms of current trends and groups most at risk
- H3 analyses the determinants of health and health inequities
- H4 argues the case for health promotion based on the Ottawa Charter
- H5 explains the different roles and responsibilities of individuals, communities and governments in addressing Australia's health priorities
- H6 demonstrates a range of personal health skills that enables them to promote and maintain health
- H7 explains the relationship between physiology and movement potential
- H8 explains how a variety of training approaches and other interventions enhance performance and safety in physical activity
- H9 explains how movement skill is acquired and appraised
- H10 designs and implements training plans to improve performance
- H11 designs psychological strategies and nutritional plans in response to individual performance needs
- H12 analyses the influence of sociocultural factors on the way people participate in and value physical activity and sport
- H13 selects and applies strategies for the management of injuries and the promotion of safety in sport and physical activity
- H14 argues the benefits of health-promoting actions and choices that promote social justice
- H15 critically analyses key issues affecting the health of Australians and proposes ways of working towards better health for all
- H16 devises methods of gathering, interpreting and communicating information about health and physical activity concepts
- H17 selects appropriate options and formulates strategies based on a critical analysis of the factors that affect performance and safe participation

Important notes relating to Assessment in VET Courses

VET courses can have dual accreditation - they count as 2 units from NESA toward your HSC AND the successful achievement of competencies may award students with a Vocational Qualification (ie. Certificate II or III) or a Statement of Attainment toward a qualification, if only some competencies have been achieved.

Students are to note that the information in the following tables relate only to the School-based (Internal) assessment to satisfy requirements for NESA. Completion of mandatory Work Placement is also required by NESA (70 hours in total – typically 35 hours in each of Year 11 and 12)

Competency-based Assessment

As this is a competency-based course, all students must work consistently throughout the course to develop the competencies, skills and knowledge as described in the Industry Framework to gain an AQF qualification.

As such, all VET coursework is assessable and students will be given progressive assessment tasks during the course. These will be used to demonstrate their ability and be deemed either 'competent' or 'not yet competent'. To be assessed as competent a student must demonstrate to a qualified assessor that they can effectively carry out the various tasks to the standard required in the appropriate industry environment.

Students will be given more specific information regarding competency-based assessment tasks in class time rather than in this booklet. Competency-based assessment tasks relate to the award of a vocational qualification rather than NESA requirements.

Students must allow time to manage the completion of progressive competency tasks and coursework throughout the year, in conjunction with the internal assessments outlined in this booklet.

External Assessment (optional HSC examination)

Students may choose to sit the HSC exam for VET courses. If it is a student's only Category B course it may also contribute to the award of an ATAR. **Advice must be sought from the Careers Advisor and your teacher before electing not to sit the HSC exam.**

However, the examination is independent of the competency-based assessment undertaken during the course and has no impact on the eligibility of a student to receive a vocational qualification.
